AP-18, AP-Mag 18

A Free Choice Supplement For Sheep, Goats, Equines and Cattle on Pasture

AP-18 and **AP-Mag 18** supplements are designed to be fed to sheep, grazing cattle, horses and goats. These unique supplements are second to none when compared to other blocks. They are the products of a state-of-the-art patented process that provides a unique 24-hour feeding system. **AP-18** and **AP-Mag 18** supplements are exceptionally dense blocks that will give you the most for your money. Here's how:

- ✓ **Economical:** A low feeding rate means lower feeding costs (on a per head per day basis).
- ✓ **Weather Resistant:** The patented, "continuous flow" system creates a quality, low-moisture, exceptionally dense block that maintains its integrity even in hot, humid weather or precipitation.
- ✓ **Minimal Labor:** **SmartLic[®] AP-18** and **SmartLic[®] AP-Mag 18** are easy to feed. Simply place the blocks in areas of easy access to the livestock.
- ✓ **Returnable Steel Barrels** are economical and environmentally friendly and eliminate the expense of additional feeding equipment. Ask us about other available packaging options and packaging size options.

AP-18, AP-Mag 18

FEEDING DIRECTIONS

Provide free choice as a supplement to pasture cattle, and horses at the rate of one block for each 15 to 25 head and to sheep or goats at a rate of one block for each 25 to 35 head. Place in pasture near areas frequented by livestock, such as watering locations, shade or loafing areas. Cattle typically consume 0.5 to 1.0 pound per head daily. Sheep normally consume approximately 3 to 4 ounces per head per day. Mature horses will typically consume 1 to 3 pounds per head daily. Consumption may vary depending on climate, grazing conditions, condition of livestock and/or availability of other feeds. In situations where climate and/or other factors result in consumption less than expected, intake of supplement can be increased by providing additional blocks per pasture.

Provide access to fresh water and free-choice salt at all times.
