

MINLIC[®] Hi-Phos

A Free Choice Mineral Supplement for Cattle on Spring and Summer Pastures

MinLic[®] Hi-Phos supplement is specially formulated to enrich the diet of cattle without the added cost of supplemental protein. This unique supplement is second to none when compared to other low-moisture blocks. This block is the product of a state-of-the-art patented process that provides a unique 24-hour feeding system. **MinLic[®] Hi-Phos** is an exceptionally dense block that will give you the most for your money. Here's how:

- ✓ **Economical:** A low feeding rate of .25 lb/head daily means lower feeding costs (on a per head per day basis).
- ✓ **High Mineral Fortification:** This supplement is highly mineral and vitamin fortified which means that additional minerals do not need to be added to the diet, resulting in significant cost savings.
- ✓ **Weather Resistant:** The patented, "continuous flow" system creates a low-moisture, exceptionally dense block that maintains its integrity even in wind, rain, or hot, humid weather or precipitation which minimizes waste or loss of product.
- ✓ **Minimal Labor:** **SmartLic[®] MinLic[®] Hi-Phos** is easy to feed. Simply place the block in areas of easy access to cattle.
- ✓ **Returnable Steel Barrels** are economical and environmentally friendly and eliminate the expense of additional feeding equipment. Ask us about other available packaging options and packaging size options.

MinLic® Hi-Phos

FEEDING DIRECTIONS

Provide free choice as a supplement to pasture cattle at the rate of one block for each 10 to 20 head. Place blocks in each pasture near areas frequented by cattle, such as watering locations, shade or loafing areas. Cattle normally consume approximately 4 ounces per head daily. Consumption may vary depending on climate, grazing conditions, condition of cattle and/or availability of other feeds. In situations where climate and/or other factors result in consumption less than 4 ounces per head daily, **MinLic® Hi-Phos** consumption may be increased slightly by providing additional blocks in each pasture.

Provide access to fresh water and free choice salt at all times.

For other SmartLic® feeding options for cattle on pasture, feed **NE-12**, **NE-22**, **NE-30**, **Hi-Pro 40** or **Pasture 40** depending on forage quality and required protein levels.
