NE-30 IGR

A Nutritional Supplement Containing (S)-Methoprene Insect Growth Regulator for Continuous Feeding to All Classes of Beef and Dairy Cattle through the Horn Fly Season.

NE-30 IGR is a **Nutritionally Engineered[®]** supplement that is completely mineral-fortified and designed to provide sufficient (S)-Methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. This unique supplement is second to none when compared to other low-moisture blocks. This block is the product of a state-of-the-art patented process that provides a unique 24-hour feeding system. **NE-30 IGR** is an exceptionally dense all-weather block that will give you the most for your money. Here's how:

- ✓ **NE-30 IGR** supplement is fortified with Altosid[®] which offers the most effective and convenient way to control horn flies in beef and dairy cattle.
- ✓ **Economical:** A low feeding rate means lower feeding costs (on a per head per day basis).
- ✓ **High Mineral Fortification:** This supplement is mineral fortified, eliminating the need for additional free-choice minerals, resulting in significant cost savings.
- ✓ **Weather Resistant:** The patented, "continuous flow" system creates a quality, low-moisture, exceptionally dense block that maintains its integrity even in hot, humid weather or precipitation.
- ✓ **Minimal Labor:** **SmartLic[®] NE-30 IGR** is easy to feed. Simply place the blocks in areas of easy access to the cattle.
- ✓ **Returnable Steel Barrels** are economical and environmentally friendly and eliminate the expense of additional feeding equipment. Ask us about other available packaging options and packaging size options.

NE-30 IGR

FEEDING DIRECTIONS

When used as directed, **NE-30 IGR** will provide sufficient (S)-Methoprene insect growth regulator to prevent the emergence of adult horn flies from manure of treated cattle. Existing adult horn flies will not be affected. Start feeding before horn flies appear and continue use until cold weather marks the end of the horn fly season. Allow free choice to cattle. Cattle should consume an average of 0.8 ounces of **NE-30 IGR** per 100 lbs. of animal body weight per day, which is equivalent to 8 ounces per day for a 1,000 pound animal.

Provide access to fresh water and free-choice salt at all times.

GUARANTEED ANALYSIS

Contains Altosid®

ACTIVE INGREDIENT:

(S)-Methoprene (CAS #65733-16-6):0.005%
OTHER INGREDIENTS: 99.995%
TOTAL: 100.000%

Crude Protein, minimum 30.0%
Crude Fat, minimum5.0%
Crude Fiber, maximum2.0%
Calcium, minimum2.0%
Calcium, maximum2.5%
Phosphorus, minimum2.0%
Potassium, minimum2.5%
Cobalt, minimum 3.0 ppm
Copper, minimum300 ppm
Iodine, minimum 15 ppm
Manganese, minimum 1,200 ppm
Selenium, minimum 6.6 ppm
Zinc, minimum 1,200 ppm
Vitamin A, minimum80,000 IU/lb
Vitamin D, minimum 8,000 IU/lb
Vitamin E, minimum 80 IU/lb

NE-30 IGR contains 30% crude protein (not more than 15% as non-protein nitrogen.)
